“ My colleagues Vicky Hawkins, Jonathan Myerscough and I hosted the APSCo Midlands forum on the 19th of October

This was held in our lovely new office in Birmingham. The event was really good & very thought provoking on the use of ChatGPT. The presentation was very interesting and then the panel discussion on the potential uses of ChatGBT was useful.

The take up of ChatGBT has been huge, this is a product which is being used and will be used going forward. The consensus was the thing was to do is ‘play’ with the technology and adapt it to work for your business. Embracing the new technology seems to be key.

The panel was excellent their where lots of good questions! My colleagues were running the Macmillan Coffee Morning also. This raised lots of money for a great cause and the office looked fab! We also had time for drinks and networking at the end which was very beneficial for all.

We look forward to hosting the next Midlands Forum next year. Thank you to everyone who attended, APSCo for the opportunity and we remain committed to supporting the sector with our range of financial and non-financial solutions”

Alan Horton, Santander
